Re: RRD Mainline Bridges, Stations and Systems Improvements
Pennsylvania Public Utility Commission Docket No. A-00109364

Dear Mr. Fleisher:

Regarding the City of Philadelphia's concern over the proposed new railroad bridge over Cecil B. Moore Avenue. As discussed in their letter of August 22, 1990, copy of which I previously forwarded to you, they did want to have the width increased beyond the proposed 60 feet. After numerous discussions with parties within both the City and PennDot, the City has withdrawn their objection to our 60' width. Attached is a copy of a letter dated September 14, 1990 from Mr. Cruger to Mr. Lynch denoting their final intentions.

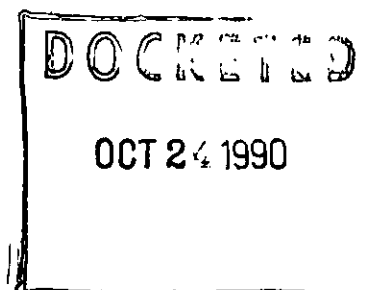

Additionally, as discussed with you, we will attempt to obtain a minimum 14' 6" vertical clearance at this site, this requirement to be stipulated in the upcoming P.U.C. Order.

I do hope that this clears the record regarding this P.U.C. Docket Number and that an Order will be executed in the near future.

Should you have any questions regarding this matter do not hesitate to contact me.

Sincerely,

Chris L. Rood

Re: RRD Mainline Bridges, Stations and Systems Improvements
Pennsylvania Public Utility Commission Docket No. A-00109364

Dear Mr. Fleisher:

Enclosed are two sets of final plans for SEPTA's Contract GC-2T for your use. As our bid opening date for this Contract is scheduled for late February, 1991 I would kindly ask that you process the appropriate documentation to issue an order.

Philadelphia Electric, Bell of PA, Philadelphia Gas and media Cable had received final GC-2T Utility Plans and Specifications in November, 1990 and therefore are only being copies on this letter with no plans.

Should you have any questions regarding this submission feel free to contact me.

Sincerely,

 P.E.

IN RE: Application of Southeastern Pennsylvania
Transportation Authority ("SEPTA") to
Reconstruct the Existing Railroad Bridges
Over Oxford Street, Cecil B. Moore Avenue,
Montgomery Avenue, Berks Street, Norris
Street and 10th and Diamond Streets,
Located In The City of Philadelphia,
Pennsylvania, and allocation of costs
thereof.

A-00109364

Dear Secretary Rich:

Enclosed please find original and two copies of
SEPTA's Application, including Pre-Final Plans, to
reconstruct the existing railroad bridges over
Oxford Street, Cecil B. Moore Avenue, Montgomery
Avenue, Berks Street, Norris Street and 10th and
Diamond Streets, all of which are located in the
City of Philadelphia, Pennsylvania.

Final plans for the work to be performed under
this Application, known within SEPTA as Contract
GC-2T, will be submitted to the Commission and to
Donald R. Fleisher, P.C. of the Public Utility
Commission's Rail Safety Division in July 1990.

BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION

IN RE: APPLICATION OF :
SOUTHEASTERN PENNSYLVANIA :
TRANSPORTATION AUTHORITY :
("SEPTA") To Reconstruct : APPLICATION
The Existing Railroad : DOCKET NO. _____
Bridges Over Oxford :
Street, Cecil B. Moore :
Avenue, Montgomery Avenue, :
Berks Street, Norris :
Street and 10th and :
Diamond Streets, Located :
In The City of :
Philadelphia, :
Pennsylvania, and alloca- :
tion of costs thereof. :

TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

1. The name and address of the applicant are:

Southeastern Pennsylvania Transportation Authority
714 Market Street
Philadelphia, PA 19106-2385

2. The name and address of applicant's attorney are:

Eugene N. Cipriani, Esquire
Legal Department
Southeastern Pennsylvania Transportation Authority
714 Market Street, 7th Floor
Philadelphia, PA 19106-2385

3. SEPTA is a body corporate and politic operating under its enabling legislation, Article III of the Pennsylvania Urban Mass Transportation Law, Act 101 of 1980, 55 P.S. §600.301, et seq., and pursuant thereto operates an extensive and

coordinated system of local mass transportation services by, among other things, scheduled trolley, motorbus, subway, elevated and regional commuter railway routes primarily within Bucks, Chester, Delaware, Montgomery and Philadelphia Counties in Pennsylvania.

4. By this application, SEPTA seeks the Commission's approval under 66 Pa. C.S. §2702 for the reconstruction of six existing bridges over city streets on the applicant's Regional Rail Main Line in the City of Philadelphia.

Pre-final plans of the bridges and of the crossing streets are attached hereto and made a part hereof. Final plans of the bridges and of the crossing streets will be submitted to the Commission's Rail Safety Division office and to all of the parties in the near future.

The construction will be phased over two shutdowns of railroad operations. The first will be during the months of April, May, June, July, August and September 1992, and the second will be during the months of May, June, July and August 1993. During the shutdown of 1992, and for limited periods prior to and following this shutdown, closure of the following streets will be required:

MONTGOMERY AVENUE	NORRIS STREET
BERKS STREET	10TH STREET
DIAMOND STREET	

During the shutdown of 1993, and for limited periods prior to and following this shutdown, closure of the following streets

will be required:

OXFORD STREET

CECIL B. MOORE AVENUE

The structures being reconstructed will be built in the same location, using the same foundation and abutments.

SEPTA will agree to initially reimburse all utilities for their expenses subject to final cost allocation as determined by the Pennsylvania Public Utility Commission after the project is completed.

5. The names and addresses of the persons, parties and entities concerned in or affected by the proposed reconstruction are as follows:

Mr. Stephen Lester
Pennsylvania Department of Transportation
District 6-0
200 Radnor-Chester Road
St. Davids, PA 19087

Gerald T. Clark, Esquire
City of Philadelphia Law Department
1101 Market Street - 5th Floor
Philadelphia, PA 19107

Mr. John Lutz, P.E.
Engineer of Design
Department of Streets
Bureau of Surveys & Design - Bridge Section
Room 930, Municipal Services Building
Philadelphia, PA 19106

Mr. F. J. Markey, Jr.
Staff Assistant
Philadelphia Electric Company
830 Schuylkill Avenue
Philadelphia, PA 19146

Mr. William Riley
Bell of Pennsylvania
841 Chestnut Street, 10th Floor
Philadelphia, PA 19107

Mr. Stephen Reiker
Greater Media Cable
1351 South Delaware Avenue
Philadelphia, PA 19147

Mr. Robert W. Walters
Philadelphia Gas Works
1800 North 9th Street
Philadelphia, PA 19122

Mr. Randy Cicatello
Comcast Cablevision of Philadelphia
4400 Wayne Avenue
Philadelphia, PA 19140

6. The number of vehicles crossing below the railroad bridges per day has not been determined, but will be made available at the initial Field Conference. SEPTA will coordinate all traffic detours with the City of Philadelphia.

7. The construction is part of a three-year project with a total estimated cost of \$308,000,000. The reconstruction of these bridges is done within Contract GC-2T with a total contract value of \$46,000,000.

8. The construction is part of an ongoing program of upgrading and repairing the deteriorated portions of the railroad, and is necessary to protect the safety of the public, both on the streets and on the railroad.

WHEREFORE, Petitioner SEPTA respectfully requests Your Honorable Commission to issue an order evidencing its approval of said application as promptly as possible.
